Sewer line rough-in on our property

## Uganda Preparations

We are so thankful that our FSB students were able to finish up Spring semester by online classes. Everyone made the adjustments very well, but we had to postpone the graduation ceremony until August. Please pray that our Graduates will be able return and walk!

As you know, we are blessed to live in FSB staff housing. But, before we can make our move to Uganda we need to move from staff housing. We were blessed to purchase a small lot in the same block we live in now. We've started the process of building a 2 car garage with a small (306 sq. ft.) efficiency apartment to store our belongings, and to live in when we need to come back to the states. We now have sewer and water! Praise the Lord!

One very important part of our preparations for serving in Uganda is a mission agency. We are excited to say we sent in our Tentmakers Bible Mission application last week. *"The mind of man plans his way, but the LORD directs his steps."* Proverbs 16:9

Since we are unable to travel to Uganda this summer, we moved our tickets to October. This visit will be an important opportunity for us to work on housing, to refine our budget, and talk with the Pastors we will be working alongside.

### Praises and Prayer Requests:

- ▶ Praising God for orchestrating the start of our garage and apartment build.
- ▶ Praising God for blessing us in the little things!
- ▶ Praising the Lord for He is sufficient in all things!
- ▶ Prayer for the TBM application process.
- ▶ Prayer for the travel ban to be lifted into Uganda, for our trip in October.
- ▶ Prayer for our Ugandan brothers and sisters who are still under tight restrictions and lockdown.

Thank you for praying for us! Much love, Deb and Steve
