## Christmas in the US...

I wanted to send out a quick update...

I had the opportunity to come back and surprise my family for the holidays. It was so fun to see the look of surprise on their faces when they saw me, it has done my heart good to be here and to be with them again.

# Christmas with family

Its beginning to look a lot like Christmas

Not what I  
expected...

Unfortunately, two days after I got to my moms in Nebraska, I got COVID . Both my brother's family's and my mom got sick with COVID as well. Mom was in the hospital for 4 days but is home and is doing very well considering all her other health issues. We praise the Lord for keeping mom with us and for helping her recover so quickly. Everyone is doing so much better after being sick for so long. We praise the Lord for healing all of us, we pray for continued good health.

# Enjoying the holidays.....

After being sick for almost a month....I've had the chance to enjoy fun holiday things with the family. I went with Brad and his family to cut down their Christmas tree, made ornaments and went to the kids Christmas concerts. It even snowed a few days ago and it brought joy to my heart to see it. It's beginning to look and feel a lot like Christmas, and I couldn't be happier.

Blessings from the  
Lord.....

I pray you are doing well and staying healthy. I will be praying you have a wonderful Christmas and a Happy New Year.

Thank you for your love and encouragement. I thank God for you and your faithfulness to Him in being on this journey with me. Your joyful support brings joy and comfort to my heart.

Because of His Grace  
Love  
LeAnn <><
