

Hello from Tarapoto!! Exciting things are going on in the family and in the ministry. Judah Elias Fowler was born on August 17th, Lucas got engaged with Taylor, there were 15 guys at our first Men's meeting since 2020 and there's a lawsuit dealing with the land we had bought for the church eleven years ago.

Please pray for all these exciting things happening. Tomorrow and Tuesday Techy will have to deal with a serious lawsuit against her. Someone is trying to steal the church land and Techy is being charged for trespassing and violence as she was trying to defend the land. This guy put a fence around it so we had a month to respond or it would be his. We consulted the police and did as we were told but now along with some unjust laws, Techy has to prove the land is hers. It appears that there is no way to win, please pray that justice will prevail.

We have also started up the men's meeting again and it went very well. We are praising God for the great response. There are six different young men preaching now and a certain excitement whenever the church is gathering together.

Here's Grandson Judah reading a book already!

Marcos and Allyson with Judah.

Techy holding the precious grandson!

Marcos and Allyson before Judah being born, Lucas and Taylor before engagement and Sarah is here after a summer at camp and with her boyfriend Jonathan.

Lucas did propose to Taylor, and she said yes!!

Thanks so much for your faithful prayers and financial support for the ministry here in Tarapoto at the Community Bible Church.

AN UPDATE TO THE COURT CASE:

Thanks so much for your specific prayers for Techy and her lawsuit!! It has been a very eventful week and we still ask for your prayers as nothing has been decided yet. The lady judge that was assigned the case has really been compassionate to Techy and they are able to converse, she has had opportunity to share Christ with an engineer involved with the case as well.

Both parties were assigned to get an official legal document telling of the exact boundaries of their land and they wanted Techy to have some witnesses as well. The gardener has gone to testify and one of the neighbors has volunteered. It should take at least until November 15 before anything more can proceed.

We are praying we can get a civil suit lined up and then resolve peacefully with the neighboring landowner. He seems to rather want to just take our land, but we know God is looking out for us.

Thanks again for your faithful prayers and support in this time of trial!

Have a great day and God bless,

Delwin & Techy Fowler
