

## Our Spring

**Brielle turned 3!**

FSB team with an overlook of Vegas.

All of our Financial Peace Graduates.

Camille and Matt seriously working on the church building.

Some great things happened in the last two months, and we are excited to look toward Easter.

We just hosted a team from Frontier School of the Bible. We love having the opportunity to invest into college students considering full-time ministry. We took them on a tour of Vegas to see parachurch organizations, church plants and get them connected with the people of our strange city.

We also just finished Financial Peace University at our church. We helped facilitate life change and freedom. We also connected with some folks outside of East Valley which was a great opportunity for Jesus.

As we look forward, 2 big things are coming. We try and make Easter as big, if not bigger than Christmas. The Saturday before we will spend time praying for unsaved people. We will have a big meal on Friday before Easter to reflect on the cross. And Sunday we will be doing a BBQ and inviting our complex and friends and neighbors.

We are also starting a Bible study in our home next week. Our goal is to reach some of our neighbors who are not saved as well as people in our church who are craving more time in the word.

- Praise God for the FSB team and the work they put in.  
Praise God for FPU and the connections made through that class.
- Please pray for the Larsons and Wolfendens who we are inviting to this Bible study and don't trust Jesus as their Savior.
- Please pray for our building search. We are still looking to move into a bigger space.
- Please pray for leaders. I would love to have more elders leading.
