

120 Degrees and Sweating

It was the hottest summer in the 10 we have spent in Vegas. Here is a flyby of the summer.

Thank you! We don't say it enough. If you financially support us, thank you. If you pray, thank you. And if you are staying up to date with ministry in Vegas, thank you.

Going all the way back to April and May we had a great Easter Season!

We had the largest gathering in our history show up on Easter Sunday and 3 people responded to the gospel. We remembered the Passover and Jesus' sacrifice on Friday.

A quick family camping outing.

Mercy and Emmerie pose while Emmerie shows off the natural beauty of the desert landscape.

Matt's parents came out for a few days and watched the kids while we travelled.

We had the unique and awesome opportunity to support a Behold Israel tour to Israel.

Matt taught at a variety of locations in Israel, helped baptize and supported BI staff. There were 47 young adults from around the world experiencing the holy land for the first time.

Oakland (5) learned how to ride his bike this summer. Ice cream is the obvious reward.

We spent lots of time in the pool to counteract the sunshine.

Cedar Mountain Retreat

Camille (8) went to camp for the first time up on Cedar Mountain. Grateful for the summer where we saw multiple kids trust Jesus to forgive them and give them new life for the first time.

Praise and Prayer Items:

- Praise God for the community and church we have the privilege of serving. We love these people and God has been gracious to put us with them.
- Pray God would give us 12 new families in the next year. We are really close to maxing out our space, but we cannot afford a new space yet. We have needs for musicians, a/v and kids ministry.
- Praise God for the new baby we have on the way! We found out that we are expecting a little boy in December.
- Pray for Emmerie as she is going to be homeschooling the kids again this year.
- Praise God that He is leading the church and I don't have to have that responsibility. But please pray for me as I develop leaders and make decisions to strengthen our group.
