

Prayer Requests

-for the new school year; I have a new food service director and changes will be implemented; hopefully I can learn quickly and be efficient

-Missions Conference at Frontier School of the Bible in October (15th-20th); please pray for God's leading/calling for the students seeking to be in missions

-In November, we will have the Board Meeting and Candidate School; please pray for safety as board members travel to get here; also for the candidates seeking God's guidance in future missions opportunities

Family Trip in July

July was filled with adventures and travel, and I managed to squeeze in time to see my parents in Dayton, Ohio. We had the pleasure of visiting the Ark Encounter in Kentucky...and it was spectacular!!

The Bible tells you the dimensions but to see it in person is breathtaking. Reading about it is hard to imagine the actually size. This was quite the experience and I will never forget it. If you haven't been, you should go. I have far too many photos to share here, but this is the Ark.

European Conference Report

Thank you everyone for your support and prayers! As I mentioned in my last update, I needed my passport to arrive on time in order to go on the trip. It did indeed arrive! I was able to go to France, before the conference in Spain, to visit our missionaries there. It was such a neat experience to see their ministry in Bordeaux. I attended their church services with them and was able to talk with several members. Even though there was a bit of a language barrier (a few of them spoke some English), we still had our Lord and Savior in common. What a beautiful thing the Family of God is!

The conference in Spain went very well. It was a great time of games, food, fun and fellowship. We heard updates and prayer requests from ever missionary. I was able to meet four more missionary couples with TBM. It was such a blessing to be able to go on this trip; and be a blessing to the missionaries in return. It is one thing to hear about ministries in other country, and it is completely different seeing it in person.

Atlantic Ocean near Bordeaux, France

View of Castelldefels from the roof of the castle (Spain)
