# THE REICHERT REPORT

AUGUST 2024

## LIFE UPDATE

Since our last update so many things have happened. We finally finished building our house in May. We are so happy to be in our home and started hosting people right away. With our house being completed we have a lot more free time to fill and space to use. We finished our internship that we were doing and have been moved to full missionary status with Tentmakers Bible Mission.

With being moved to full status we hit the ground running with the Cache Valley Project. We opened our home to start hosting a Bible Study to be the group that God willing will be the start of a church here in Smithfield. We have plans to visit churches to share our ministry with them and share how God is at work here in Utah.

# TENTMAKERS MISSIONARIES

In May of 2024, we finished our internship that we had been working on for two years with Debby and Jaramie Fellows, and became full status Tentmaker's Missionaries. through the internship we learned a lot about starting a church. I went through courses of Biblical Eldership and Biblical counseling. Haylee learned how to assist a husband who is a pastor and how to counsel woman by working through case studies. It was a very meaningful and helpful time for us both.

## BIBLE STUDY IN OUR HOME

With having a home now, we have the space and the time for more ministry opportunities. We have opened our house to start a Bible Study open to anyone that wants to come. I started our Bible study in Colossians. to give people a good foundation on the Christian life and to have a strong understanding that Christ is all we need.

The study started slow, with no interest at first. Then i had a young man come who was so hungry for God's Word. He had so many questions and keeps bringing new people to the study. Then soon we had a young couple come who have been regular attendees. Toward the end of the study, we had another couple join us and we even ran out of places for people to sit.

It has been so good to see God's hand at work with leading people to this study.

## **CHURCH MINISTRY**

On Sundays we attend Grace Bible Church in Tremonton where Jaramie Fellows is the Pastor. We will attend here until we are at a point to start Sunday services in Smithfield. I have been leading their discipleship group this summer to get me more experience being in front of people. Haylee has been teaching Sunday school to the children at the church.

This summer has been very busy and exciting. The Bible study that I thought would just be just between Haylee and myself God as grown at a fast pace. We are getting ready to start the book of Ephesians. I cannot wait to see God continue to work. I thought for sure I was ready to get all of this started last year but it clearly was not God timing. Seeing Him work at this time has been very encouraging.

We want to thank everyone so much for the support you have given. We truly appreciate it so much.

## ***PRAYER REQUESTS***

- Continued growth of the Bible study
- Financial Support
- Prayer Support
- Good Health
- Wisdom on what steps to take to grow our family

# ***BUILDING OUR HOME***

Our house took a lot of time to build. We worked our 40 hour weeks at our jobs did our internship served at church and put in 35 hours a week on our house. It was hard and stressful but such a blessing from God to open up this opportunity for us in Smithfield. This house will allow us to host people, have overnight guest who might need it and so much more.
